

Stoned Pickle Army - Pickle Paper

What is the Stoned Pickle Army?

Stoned Pickle - How it Started

Stoned Pickle came from my need to express myself creatively and finding an outlet by getting back into illustration. November 2022 I started drawing. After a week, I decided to use a “stoner pickle” as a subject to refamiliarize myself with everything. By December I had Stoned Pickle as a concept and set myself the challenge of drawing 420 Stoned Pickles by 4/20/2024 (it’s a palindrome). 2023 rolled around and @hey_wallet started to get used by everyone. I ran a few campaigns and decided on starting a Discord server. Within 3 weeks I went from learning about NFTs to having an NFT, Token and community well underway.

The “dev”

@playferkeeps#2423 is a Canadian born and raised. His parents are immigrants, one from Spain(father) the other from Poland(mother). He has 10 years experience in web 2 as a full stack developer in e-commerce and building out other SaaS solutions. Passionate about art and creating, Stoned Pickle grew accidentally from his need to express himself creatively.

Stoned Pickle Army - How it's Going

Stoned Pickle Army is a meme token, a community, a movement of degens being degens. With one four main values:

- 1) Just cuz you're a degen doesn't mean you have to be a shitty person
- 2) Make people smile
- 3) Give back
- 4) Hey hey hey hey, smoke weed everyday

What we aren't

- VC Funded, hence the SPA NFT Campaign
- Promising you the moon - We do not have control over the open market, all we can do is operate in good faith and do our best to provide utility to our holders that makes them want to be a part of this.

This fundraiser is solely to raise funds for three main things:

- 1) List \$SPA token on the open market with 5K USD Liquidity, locked for 1 year.
- 2) Push forward marketing, branding and community initiatives.
- 3) Fund early stages of design and development for Stoned Pickle Army game.

Utility

SPA Farmers

SPA Farmers are staked to earn \$SPA. As of February 15th 2023 we will be pausing all emissions of staking until we list the \$SPA token. After which, we will continue staking emissions through various events.

SPA WenList

SPA WenList is a ticket to enter for 0.7Sol White List for SPA NFT.

SPA NFT

SPA NFT Will be used for the avatars for the Stoned Pickle Army game. While in development SPA NFT will have various staking events and airdrops given to holders and early supporters.

SPA Token

SPA Token will be used for Stoned Pickle Army game in-game purchases. Purchases made with \$SPA for any Stoned Pickle Army initiatives (NFTs, Merchandise etc.) will receive a discounted rate. \$SPA will also be stackable after Open Market launch for a period of time.

Old Token vs. New Token

With SPAv1 420trn were originally minted. After the OG Airdrop was gamed, we decided to create a new token SPAv2, reduced supply to 10bn, and airdrop all the wallets that DID NOT game the OG Airdrop. Essentially a big "FUCK YOU" to the people who gamed the airdrop. The token airdrop will be at a ratio of (SPAv1:SPAv2) 1:(10bn/420trn/1.25). Basically if you have **100m SPAv1** you'll have **~1,904.76 SPAv2** airdropped to you.

Goals

\$SPA Token

Pursue partnerships with Cannabis stores online and POS for purchasing.

SPA NFT Game

Turn-based platform “last man standing” type game. Design, build, test and release MVP by late 2024.

More NFTs

“Dev” has a lot of ideas for NFTs, some just art, some with utility.

SPA Marijuana Strains

Work with growers to create a strain that can be labeled with the Stoned Pickle Army brand.

Stoned Pickle Salves

License, create and distribute, where legal, a line of THC/CBD infused salves for muscle pain and body aches.

Affordable THC/CBD Products

Let's face it, that shit is expensive in most places. We want to make it accessible to all, from the working class to the wealthiest person on the planet. Even free in some cases to those that otherwise wouldn't be able to afford medications associated with Marijuana and Hemp.
